Wifi choupal registration form

Home » csc wifi choupal registration Agreement The aim of the program is to provide last mile connectivity by leveraging bharatnet infrastructure for the provision of broadband services in Gram Panchayats (GP) and villages. USP will train Wi-Fi Choupal at 5000 Gram Panchayats (GP) using BharatNet endpoints to GPs and extending it over a Wi-Fi network to nearby villages. This project aims to: create a Wi-Fi coverage area in GPs and villages to cover inhabited areas of villages. The devices for the target end user would be smartphones and tablets. Consider alternative (solar) power modes for Wi-Fi and associated equipment. Check the robustness of the model that would provide input to other service providers for entry into rural markets and develop its own models for the provision of services in rural areas. The USOF provides financial support under the financial terms of the agreement. The infrastructure created under this project is owned by CSC and Governance Services India Limited. A list of 5,000 Panchayat Gram for the creation of Choupal Wi-Fi is given in Appendix I of the Agreement dated 31-03-2017. Final results The USP will be solely responsible for the supply, installation, testing, commissioning, operation & maintenance of all infrastructures created as part of the project to create Choupal Wi-Fi in 5,000 Gram Panchayats (according to Appendix-I) and villages, including the associated core network. The USP provides broadband internet via Wi-Fi on a non-discriminatory basis to all users. USP must set 8 Access Points (AP) for each Choupal Wi-Fi, using the BharatNet network as a backhaul. The USP is solely responsible for the supply and operation of the necessary equipment and systems, the handling of subscriber complaints, the collection of expenses and the issue of receipts, the management of complaints with liquidations and the damages resulting from its operations. You may have a back-end agreement with Village Level Entrepreneurs (VLE) or any person authorized by USP for one or all functions at their discretion. The USP will replace defective and damaged equipment, infrastructure and access points with its own costs for the agreement period. The USP is responsible for the security of the entire infrastructure, including hardware, software. The USP lodges police complaints against deliberate disfigurement of infrastructure, including theft and damage. However, USP is responsible for resolving such cases to ensure wi-fi network maintenance all the time for the agreement period. After the implementation of the project, an impact assessment must be carried out by and an independent agency to ascertain the effectiveness and usefulness of the project which would contribute to the further implementation and extension of the project. The impact is at Annexure-1 of the Agreement of 31-03-2017. Timeline The implementation period for the creation of 5000 Choupal Wi-Fi is six months from the date of signature of the dated agreement dated Proof of the conceptual report is presented in six months. The impact assessment/assessment shall be carried out and submitted to the USOF by the USP within 6-12 months of the signing of the USPF Agreement. USP will manage the sites and provide the service for a minimum period of three years from the date of commissioning of the validity of the agreement dated 31-03-2017, whicheth is previous. The USP provides the monthly implementation plan to implement the project within 15 days of the signing of the agreement dated 03-2017. The implementation period will not include days of work not done due to FORCE MAJEURE and suspension in points 2.10 Duration of the agreement. The agreement is valid for a period of 03 years (36 months) from the effective date, unless it has been revoked previously for reasons as specified elsewhere in the document. How to apply Wifi Choupal and Wifi Choupal Price :- Hi friends, I'm Meghraj, I'll talk to you in this post today, friends, what is Choupal Wi-Fi on Choupal Wi-Fi and how can you put Choupal Wi-Fi if you want to use Wi-Fi Choupal? In this post, in which post you will get complete information, easy-to-complete information, then friends, complete this post because today the person who will give you the training of the man Knowing the information, you will learn very much to a large extent, how much you can use the internet cheaply, if you want to know, then you definitely need to start this post by defining this post.
